

AUDIT COMMITTEE CHARTER (the "Charter")

Purpose

The purpose of the Audit Committee ("The Committee") is to provide assistance to the Board of Directors (the "Board") in fulfilling their oversight responsibilities relating primarily to;

- the integrity of the accounting policies, financial reporting and disclosure practices of Innospec Inc ("The Company");
- the determination of the independent auditor's qualifications and independence;
- the performance of the Company's Business Assurance function and of the independent auditor;
- legal and regulatory compliance requirements in respect of financial reporting;
- preparation of an audit committee report as required by the Securities Exchange Commission ("SEC") to be included in the Company's annual proxy statement;
- the performance of the company's systems of internal accounting and financial control; the annual independent audit of the company's financial statements; and
- reviewing the Company's policies and practices with respect to the assessment and management of financial risk, financial reporting and disclosure requirement risk.

Membership

The Committee shall be appointed by the Board and shall be comprised of not less than three non-executive members of the Board, and the Committee's composition will meet all requirements of the Exchange on which the Company is listed and the Securities Exchange Commission ("SEC") including the requirements of independence established by those institutions.

At least one of the members of the Committee shall be an Audit Committee Financial Expert as defined by Securities and Exchange Commission rules under Section 407 of the Sarbanes Oxley Act of 2002.

No Committee Member shall serve on more than two other audit committees of SEC-reporting companies or overseas publicly quoted companies.

Meetings

The Committee shall meet at least Quarterly, or more frequently as circumstances dictate. The Chair of the Committee, or any two members of the Committee, may call meetings as they deem necessary and appropriate. As part of its job to foster open communication, the Committee should meet at least twice annually with the person responsible for the Business Assurance function, the Chief Financial Officer and the independent auditor separately to discuss any matters that the Committee or each of these groups believes should be discussed privately. In addition, the Committee or at least its Chairperson should meet with the independent auditor and management quarterly to review the Company's financial statements.

The Committee shall maintain and submit to the Board copies of minutes of each meeting of the Committee, and each written consent to action taken without a meeting, reflecting the actions so authorized or taken by the Committee since the preceding meeting of the Board. A copy of the minutes of each meeting shall be placed in the Corporation's minute book.

Authority

The Committee's role is one of overseeing but it understands that management is responsible for preparing the Company's financial statements and that the independent auditor is responsible for planning and conducting audits to determine whether the financial statements present fairly in all material respects the financial position of the company. Additionally, the Committee understands that financial management, including the internal Business Assurance staff, as well as the independent auditor, have more time, knowledge and more detailed information on the Company than do Committee members. Consequently, in carrying out its responsibilities, the Committee is not providing any expert or special assurance as to the Company's financial statements or any professional certification as to the independent auditor's work. It is not the duty of the Committee to ensure that the Company complies with laws and regulations. Furthermore, while the Committee is responsible for reviewing the Company's policies and practices with respect to the assessment and management of financial risk, financial reporting and disclosure requirement risk ("Financial Risk"), it is the responsibility of the CEO/CFO and senior management, overseen by the Board, to propose the appropriate level of the Company's exposure to risk generally.

In discharging its responsibilities, the Committee is empowered to investigate any matter brought to its attention with full access to all books, records, facilities and personnel of the Company and the power to retain external counsel, auditors or other experts for this purpose. The Board and the Committee are in place to represent the interests of the Company's shareholders; accordingly, the independent auditor is ultimately accountable to the Committee and the Board. The Committee and ultimately the Board have the authority and responsibility to select, evaluate and where appropriate, replace the independent auditor.
