Background and **Implementation Statement**

Background

The Department for Work and Pensions ('DWP') is increasing regulation to improve disclosure of financially material risks. This regulatory change recognises Environmental, Social and Governance (ESG) factors as financially material and Pension Schemes need to consider how these factors are managed as part of their fiduciary duty. The regulatory changes require that Pension Schemes detail their policies in their statement of investment principles (SIP) and demonstrate adherence to these policies in an implementation report.

Statement of Investment Principles (SIP)

The Plan updated its SIP in to in response to the DWP regulation to cover:

- policies for managing financially material considerations including ESG factors and climate change
- · policies on the stewardship of the investments

The SIP can be found online at the web address https://innospec.com/wp- content/uploads/2021/08/SIP uk.pdf SIP uk.pdf (innospec.com)

Changes to the SIP are detailed on the following page.

The below table outlines the areas which the Plan's investment managers are assessed on when evaluating their ESG policies and engagements. The Trustees believe that the Plan's ESG policies are appropriate although may look to update these should they no longer be fit for purpose ahead of the Plan's upcoming buy-out.

We will provide this information in the future if the Trustees decide to carry out an Impact Assessment.

Engagement

As the Plan invests via fund managers the managers provided details on their engagement actions including a summary of the engagements by category for the 12-month period to 31 December 2021.

While sustainability is clearly on the agenda at Barclays, Insight found Barclays is taking a different approach to peers – not exiting business or reducing financing to carbon industries but trying to work with them to reduce emissions. The effectiveness of this will be harder to observe externally and the targets it has set so far look largely in line with what its competitors are already doing. Barclays also took measures to improve the culture and Insight is expected to review this on an ongoing |
